

Payment Options

We Care

Optimal Health & Wellness believes in the value of wellness care for you and your family and have maintained a pricing structure that allows care for all budgets. Our office participates in a cash practice program but has options for those who have insurance. We also accept auto accident cases. For patients who have little or no insurance coverage, flexible payment programs can be arranged. To learn more about our payment options for chiropractic and wellness care, you can call our office directly.

Insurance

We do not take PPO insurances for Medical or Naturopathic services. If you do have PPO insurance, we would be able to provide you with a superbill which you can send to your insurance company for reimbursement. You may receive some reimbursement toward your consultations.

We may be able to accept most PPO insurances for Chiropractic and Acupuncture services. We accept auto accident, personal injury protection coverage and medpay plans. If you have any questions, please do not hesitate to call our office or send us a message in the contact form below.

Care Credit

We accept and offer Care Credit for our patients. For more information please visit <http://www.carecredit.com/>

Family Plans

Our focus at Optimal Health & Wellness is to actively help you and your family in taking responsibility for your health, wellness, and disease management. We assist and guide you to take the time to care for the important people in your world: you and your family. In an effort to make living the wellness lifestyle as easy and affordable as possible, we can create a customized family plan that is specific to you and your family.

Health on a Budget

At Optimal Health & Wellness we're convinced that a small amount of your time and money to care for your most important asset—your health—will be far less time consuming and expensive than trying to recover it. If you feel you do not have enough time or money to take care of yourself, please contact us – we can help! The last thing we want is for you to come to our wellness center in crisis. So please, we would like to encourage you to take your health very seriously. As the old saying goes, if you don't have your health, you don't have anything. Unfortunately, too many people don't discover how true that statement is until it is too late.
